The accolades didn't take a short time to accomplish but quite the opposite. It took weeks, months, even years for it to come into fruition. It took a lot of effort and time to accomplish and is still in the process to this day. It impacted because it gave me something to reach for a goal even to become equal to or surpass my father's learning so that I can impress my friends and family. This goal would be to get a master's or higher in college so I can get my name out there and get more money when I get a career/job.
